

Revised pro forma historical financial information for BT and EE group

For the years ended 31 March 2016 and 31 March 2015. Published on 10 February 2017.

| Sheet 1 | Basis of preparation |
|---------|------------------------------|
| Sheet 2 | Impact of Italy adjustments |
| Sheet 3 | Revised pro forma historical |

From 1 April 2016, we reorganised our divisions and made some changes to our internal trading model. We prepared pro forma historical financial information for the years ended 31 March 2016 and 31 March 2015 under both this new organisational structure and our previous organisational structure, and as though EE had been part of the group from 1 April 2014.

Within this document we've revised the pro forma information of our Global Services division to reflect the outcome of the investigation into our Italian business, impacting previously published pro forma historical information for the group in both the old and new organisational structures.

1. Basis of preparation

<u>Overview</u>

This document shows the impact of adjustments made following investigations into our Italian business, as disclosed on 24 January 2017.

Sheet 2. Impact of Italian adjustments: this shows revised pro forma historical financial information in our current organisational structure having adjusted the previously published version for the impact of investigations into our Italian business.

The previously published pro forma historical financial information in our current organisational structure itself reflected an estimate of what BT results would have been, had EE always been a part of the group, and adjusting for the organisational and internal trading model changes which came into effect on 1 April 2016.

Sheet 3. Revised pro forma historical: this shows revised pro forma historical financial information in both our former and current organisational structures having adjusted the previously published versions for the impact of investigations into our Italian business.

The previously published pro forma historical information in our former organisational structure itself reflects an estimate of what BT results would have been, had EE always been a part of the group, but before the organisational and internal trading model changes which came into effect on 1 April 2016.

Background

On 29 June 2016, we published restated historical financial information to reflect organisational changes that came into effect on 1 April 2016.

Previously, our six customer-facing divisions were BT Global Services, BT Business, BT Consumer, EE, BT Wholesale and Openreach (EE Limited having been acquired by the group on 29 January 2016). As announced on 1 February 2016, with effect from 1 April 2016, we reorganised the group and our customer-facing divisions business are now: Global Services, Business and Public Sector, Consumer, EE, Wholesale and Ventures, and Openreach.

Alongside these changes, EE's MVNO operations and a number of specialist ventures within the group (including Fleet, Redcare, Directories, Payphones, Tikit and Cables) were moved into Wholesale and Ventures.

At the same time, we took steps to simplify our internal trading model, including moving to a cost-recovery model for certain intra-group revenues. Neither the organisational or internal trading changes had any impact on the total group results.

We published on our website (www.btplc.com) restated historical financial information to reflect these changes, showing EE consolidated as part of the group since the date we acquired it on 29 January 2016.

Basis of preparation

In addition to the above restatements, we provided pro forma historical financial information by division under the new organisational structure, and prepared as though EE had been part of the group from 1 April 2014. The pro forma historical financial information shows EE's historical results adjusted to reflect BT's accounting policies. In the consolidated group total, we eliminated historical transactions between BT and EE as though they had been intercompany transactions. We did not make any adjustments to reflect the allocation of the purchase price for EE. All deal and acquisition-related costs were treated as specific items and therefore didn't impact the pro forma.

This document includes the previously published pro forma historical information revised for the impact of the investigation into our Italian business, as detailed on pages 5 and 20 of our Q3 2016/17 press release. Our investigations revealed inappropriate behaviour, improper accounting practices and the need to reassess the financial position of our Italian business in light of its economic outlook and a more cautious view in light of the losses generated by that business. The improper practices included a complex set of improper sales, purchase, factoring and leasing transactions. With the investigation into the financial position of our Italian business substantially complete, our pro forma revenue for 2015/16 and 2014/15 has been reduced by £30m and £11m respectively. Our pro forma EBITDA for 2015/16 and 2014/15 has been reduced by £122m and £78m respectively. There is also a corresponding reduction in our previously published pro forma capex for 2015/16 and 2014/15 of £28m and £8m respectively.

2014/15 Revised pro forma historical financial information

¹ reflects an estimate of what BT results would have been, had EE always been a part of the group, but before the organisational and internal trading model changes which came into effect on 1 April 2016

² reflects an estimate of what BT results would have been, had EE always been a part of the group, and adjusts for the organisational and internal trading model changes which came into effect on 1 April 2016

³ adjustments to reflect the revised pro forma information as a result of the investigation into our Italian business

⁴ before specific items

⁵ EE's results (as reported or as provided by management, where not previously published), adjusted for BT's accounting policies

⁶ before purchases of telecommunications licences
