

Section 1: Exchange Lines

Part 24: BT ISDN 30

---

**Subpart 13:BT Digital Calling Features (Formerly Digital Select Services)**

**ISDN30 I421 PRODUCT RETIREMENT NOTICE**

**ISDN30 I421 is being completely retired in 2007. In most areas this is expected to take place on July 31st 2007, but in some parts of the country this may be at an earlier date.**

**Customers affected by an earlier retirement date will be notified in advance. On retirement, telephony service and features of ISDN30 I421 will no longer be available to existing Customers. Rental and any other related charges will no longer be applied. (This note will be updated with any change to the retirement date should this arise)**

**From August 18th 2006, Customers terminating their ISDN30 I421 Contracts within the Minimum Period will not be liable to pay early termination charges. This applies to 1 year as well as to 3 and 5 year long term Contracts.**

**See Subpart titled `Conversion to ISDN30e from Dass2 or I421' later in this Part for charges that apply to Customers converting from ISDN30 I421 to ISDN30e.**

BT Digital Calling Features provide enhanced call handling facilities on calls made and received by ISDN2, 2e lines, Business Highway lines and ISDN 30/30e channels. Some BT Digital Calling Features can only be provided and removed by BT while others can be activated by the customer. Usually individual BT Digital Calling Features are charged by a quarterly rental without set up charges for each directory number or contiguous Direct Dialling In number range (where this applies to ISDN2/2e lines or ISDN30/30e channels). The service, once provided, applies to all calls to or from the relevant directory number or contiguous DDI range.

**Eligibility**

BT Digital Calling Features are generally available on calls made or received by :

ISDN2 and 2e lines (ISDN2 DASS2 has been withdrawn from new supply with effect from 10 April 2006);

Business Highway Lines (over the ISDN directory number only, but not the PSTN numbers)(Business Highway has been withdrawn from new supply with effect from 10 April 2006)

ISDN30 (DASS2 or I421) or ISDN30e channels (ISDN30 I421 has been withdrawn from new supply with effect from 10 April 2006).

## Section 1: Exchange Lines

## Part 24: BT ISDN 30

**Pricing Information**

Charges apply per directory number or contiguous number range. Where calls are diverted or forwarded, the diverted part of the call is charged to the renter of the service at standard charges including any applicable discounts. Calling customers pay the call charge only to the number which they have dialled and not to the diverted number.
